10. The Company is not a financial institution and does not grant interest on deposits. The Company is unable to provide advice on fiscal or legal matters. Each Player assumes full responsibility as to choosing most suitable payment methods.

In order to review specific pay-out ratios per game Players may refer to the "Help/FAQ" menu (section payout/payout ratio casino) or to the return to Player rates (RTP) listed by the provider within the individual game frame. The term pay-out ratio or RTP refers to the relationship between stakes and winnings. It is based on settings of the random number generator and will be achieved on a long-term and average basis. Generally, the pay-out ratio of casino games offered by the Company exceeds 94%. As a general rule, all funds that have been paid in the Personal Account, shall be paid out in the same manner (credit card, bank transfer, etc.) as the Deposit occurred if supported by the payment provider. If the Company has terminated this Agreement, then available funds on the balance free from any liabilities to the Company or other third parties will be paid out to the payment system used for depositing or any other at the sole discretion of the Company. Any and all funds that have been deposited into the Personal Account, shall be paid out to the same bank account of the Player from where such funds were deposited.
4. In case any refund is required to be made by the Company, it will only be made to the same account and using the same means of payment the funds were deposited with.

7. Funds or balances on a Personal Account of one Player cannot be transferred to a Personal Account of another Player.
8. If the Player incurs any extra costs in the course of the payment transaction, (e.g. upon paying out, paying in, payment of processing fees; e.g. due to retransfer to credit cards, higher transaction costs in the case of foreign bank transfers), the Company is entitled to charge the Player's Personal Account with these additional costs. Likewise, costs arising from returned transactions for which the Player is responsible (e.g. due to a wrongly stated account number, insufficient credit on the account, etc.) must be reimbursed by the holder of the account.

The Company may limit the withdrawal limit to 20,000 EUR per month in case the Player wins per a single win more than 50,000 EUR, unless stipulated differently in the Agreement. The daily, weekly, and monthly limits of withdrawal can be revised and changed by the Company on a case-by-case basis. Exceptions to these withdrawal rules can be made upon the discretion of the Company.

If prior to the Company becoming aware of

the error a Player has withdrawn funds that do not belong to the Player, without prejudice to other remedies and actions that may be available at law, the mistakenly paid amount will constitute a debt owed by the Player to the Company. In the event of an incorrect crediting, the Player is obliged to notify the Company immediately by email.

Each season has a total of 30 match days, played across an even amount of Home- and away-games. A season lasts for 150 minutes. A game can be joined at any time – as long as it's within the pre-season.

2. Season information

- 2.1. A season consists of 30 rounds / match days. The season is divided into three phases: „Pre-league“, „Match day loop“ and „Post-League“. „Pre-League“ runs before the start of a season and lasts about 2.30 minutes. The individual rounds are summarized in the „Match day loop“ phase. The match-time is 4:35 minutes per individual game. After the season has finished, there is a 60-second „Post-League“ phase.
- 2.2. Betting on a game within the Virtual Football League is possible at any time – as long as it's within the pre-season.
- 2.3. If Player prefers, Player can also Bet on the games for the following day. Simply select the day Player want from the „Matchday“ bar at the bottom and the games related to that day along with the odds will be displayed.

3. Match day

- 3.1. One match day / round lasts for 4:35 minutes, with the actual playing time being 3:00 minutes.
- 3.2. The match-day is divided into 60 seconds of „Pre-match“, followed by 1st and 2nd half – both at 90 seconds each, a 10-seconds long half-time break and finally a „Post-match“ phase before it automatically moves on to the next round.
- 3.3. Betting on the current match-day can be done up until 10 seconds before kick-off. However, the Betting markets for any future rounds will still remain open.
- 3.4. The following Betting options are available for each match: 3-way (1,X or 2), Handicap, First Goal, 3-way / 1st half, Over/Under Goals and Correct Score.

- 4.2. The match simulations are created through a combination of Artificial Intelligence and independent random number generators. Simultaneously, the performance parameters of the VFL Players are based on professional football Players (E.G in terms of number of goals, fitness, consecutive match-statistics etc).
- 4.3. An overview of all available betting types The Virtual Football League can offer the following types of Bets:
 - 1X2 (Home, Draw or Away)
 - Handicap (1:0 or 0:1)
 - Over/Under 2.5 Goals
 - Half-Time Result
 - Correct Score
- 4.4. Below, Players will find the individual types of Bets described in detail. To access the special Bets for each individual game, simply click on the Betting Program for the Virtual Football League and Player will find it on the right hand side under the "+" link. Clicking that, will display all available Bets for that game.
- 4.5. With the 1X2-bet, the Player has to guess the correct outcome of the match. When selecting the outcome, „1“ is for a Home-win, „X“ is for a Draw and „2“ is for the Away team to win.

5. Terminology

- 5.1. Handicap

With the Handicap-bet, the Player selects the outcome of the match with one team having a fictitious goal advantage. For example, the Home team can start with a 1-0 advantage. If the Player then chooses a Handicap win for the Home team, the team has to either draw or win. If instead the selection is an „X“, the Away-team has to score one more goal than the Home team (E.G. 2:1, 1:0 or 4:3) in order for the Player to win. If the Bet is a „2“, that the Away-team will win when the Home team has a Handicap start, then the Away-Team must win with at least two more goals than the Home Team in order for it to be a winning Bet.
- 5.2. Over/Under 2.5 Goals

The Over/Under-bet allows the Player to Bet on the total amount of goals. By default, it is set to Over or Under 2.5 Goals. In order to win an „Over 2.5 Goals“ Bet, there needs to be at least a total of three goals in the game (E.G. 2:1, 4:2, 3:0). To win an „Under 2.5 Goals“ Bet, there cannot be more than a total of two goals at the end of the game. (E.G. 1:1, 0:2, 0:0).
- 5.3. Half-time Result

The Half-time result Bet is similar to the standard 1,X,2 bet , in the sense that the Player has to choose either 1, X, or 2 for the result of the 1st Half. So, for example, if the Player

chooses 1, or the Home-Team to win the 1st Half, then the Home Team has to lead by at least one goal before the whistle blows for Half-Time. This Bet does include the injury time that is added onto the original 45 minutes.

5.4. Correct Result

With the Correct Result Bet, the final result has to be correctly guessed. To win the Bet, the predicted result has to be the final result. If the Player predicts a 2-0 win, then the end result has to be 2-0 after 90' minutes, otherwise it is a losing Bet.

- **Cashout Rules**

Remote gambling on the Website is provided by the Company (BM Baltics Ltd, registration number C 98652), established in Malta.

1. General

1.1. With a Cashout you can withdraw funds before a bet has reached its inevitable conclusion without having to wait. You have the opportunity to track your selections and cash out at a point in time of your choosing. When this feature is available you can cash out a bet in its entirety.

1.2. In order to cash out, the feature must be available and show a Cashout amount for your bet. There may be a time delay in processing a Cashout request. If a price changes or a market is suspended then the Cashout request may not be successful.

1.3. A Cashout is available on selected events, fixtures and markets, both pre-match and in-play. Also on single bets, straight bets and multiple (accumulator, parlay) bets, for a variety of sports events including football, tennis, cricket and basketball. On such events, only a full Cashout, of the initial bet amount, is available.

1.4. The Company cannot guarantee that the Cashout feature will be available on your bet selection. Where a pre-event Cashout is available and we do not cover or we stop covering the event in-play, then a cash out will be unavailable once the event starts or when in-play coverage stops.

1.5. Should you wish to cash out, all you need to do is click on the “Cashout” button located below your selection(s). Once you request a Cashout, this is only understood to mean a full and complete Cashout of your initial bet amount - not a Cashout of partial amounts. This amount will be settled and the final result relating to your bet will have no impact on the amount returned to your account.

1.6. The amount offered will depend on the performance of your selection(s) and may be higher or lower than your original stake, enabling you to guarantee a profit or minimise a potential loss.

2. Terms and Conditions

1. A Cashout is available on selected events, fixtures and markets both pre-match and in-play, on single and multiple bets.
2. A time delay in accepting a Cashout request is in place. If a price changes or a market is suspended then the Cashout request may not be successful.
3. If the cash out request is successful, this will be displayed and the bet will be settled immediately. The actual final result of the original bet will have no impact on the Cashout amount. Where a bet has been cashed out before the event commences and the original stake is returned in full, the original bet will be treated as void.
4. The Cashout amount offered at any time is the total amount that will be returned to your account if the Cashout request is successful.

5. Cashout betting is not available with one or more active bonuses. Cashed Out bets do not count toward wagering release of your Bonuses.
6. The Company reserves the right to remove all or part of the Cashout feature for any customer or group of customers where it has reasonable grounds to believe that the customer or group of customers is misusing (e.g. in the case of fraudulent activities) the Cashout option, by frequently using the feature to take advantage of pre-event price movements and closing their bets through the Cashout feature before the event has started.
7. The Company will not be responsible if the Cashout feature is not available for technical reasons and bets will stand as originally placed during any such period.
8. The Company cannot guarantee that the cash out feature will be available on your bet selection. Where a Cashout is available pre-event and we do not cover or we stop covering the event in-play, then a Cashout will be unavailable once the event starts or when our in-play coverage stops. A Cashout will not be available when a market is suspended.
9. The Company reserves the right to accept or decline any bet requested for any sports, competition, market or bet type that is included in the Cashout feature.
10. The Company reserves the right to amend, suspend or remove the Cashout feature (or any part of it) at any time for any event, fixture, market or customer. Any bets placed on such events, fixtures or markets will stand as originally placed.
11. The Company reserves the right to reverse the settlement of a Cashout if the bet or a market is settled in error.
12. Some offers will not be applied where the Cashout feature has been used to close all or part of a bet. See Terms and Conditions for each offer for details.
13. If you have opted for self-exclusion on Sports betting, you will not be eligible to perform a Cashout.
14. If you have opted for a cooling-off period on non-Sports betting activities, you are entitled to cash out while the aforementioned period is still active. If, however, your cooling-off period directly involves Sports betting, cashing out will not be possible until the cooling-off period has ended.
15. If you have set a deposit limit, you are entitled to perform a Cashout.
16. The Cashout feature is only applicable to the Sports section.
17. Once you have requested a cashout, a cancellation is not possible.
18. Cancellations are not applicable to Free Bets and, accordingly, the option isn't offered.
19. Once you request a Cashout, this is only understood to mean a full and complete Cashout of your initial bet amount - not a Cashout of partial amounts.
